

**WANIC Skill Center  
Barrier Reduction Fund Application 2017-18**

The purpose of the barrier reduction program is to provide assistance and eliminate a barrier that inhibits a student's success in an educational program. A student qualifies for financial support if they are eligible for the Free/Reduced Lunch program at their school and are enrolled in a 3 credit Skill Center Program. These funds may be used to pay for class fee, bus pass, gas card, program specific supplies, and other approved expenses. These funds may not be used for expenses that are not required for participation in a WANIC program. Funding is subject to availability from the State of Washington. WANIC office personnel may verify the information the family provides matches the records at the student's home high school. Please complete the following three steps.
